

Literacy

This half term we will be applying our writing skills in a range of ways from writing sentences using capital letters, finger spaces and full stops to sounding out and writing unfamiliar words using the phonics we have been taught all year. For reading we are aiming at increasing our pace and fluency as well as answering questions based on the text.

Communication and Language

Talk, talk, talk and more talk!
We will be explaining our ideas and using an increasing range of vocabulary to add detail in our talk.

Mathematics

During this half term we will be developing our addition and subtraction skills using a number line to count forward and backwards. We will also be solving a range of number problems. For Shape, Space and Measures we will be looking at different ways to measure objects using non standard measurements, as well as the vocabulary of measurement.

Physical Development

This half term we have P.E. coaches in school who are helping us improve our games skills.. We will be demonstrating everything we have been taught in our Sports Morning.

Understanding the World

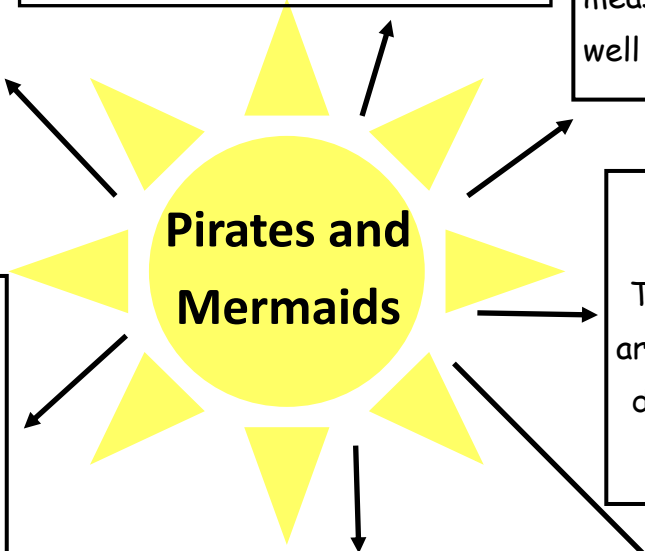

We are re-visiting the features of maps, naming and drawing features in the landscape. We will be discussing how the lives of Pirates and Mermaids differ from our own lives. We will think about the care and needs of underwater sea creatures, and how we can look after our environment.

Expressive Arts and Design

We are using our imaginations and design skills to paint pirates, make and build our own pirate ships and create treasure maps!

PSED

We are using this half term to develop our resilience to change. We are preparing for the transition to Year One and understanding how this makes us feel.

Our Mantle of the Expert work this half term is based around becoming experts about pirates and under the sea
