

Dear Parents/Guardians

Red nose day is Friday 24th March! This is an incredible way to help support projects in the UK and Africa to find effective ways to tackle injustice and poverty. Since the last Red Nose Day, over 860,000 children in Africa have been given life-saving vaccines, over 43,000 people with a mental health condition in the UK have been provided the support that they need and over 310,000 children, young people and their families, at risk of abuse, violence and exploitation internationally have been lead to safer lives. We are asking that children come dressed in red and make a contribution of £1. Thanks in advance for your support and effort. We look forward to seeing a sea of red children.
